Department of Public Health
Bremerton-Kitsap County
Sixth and Marion
Bremerton, Washington

Attention: Mr. Thomas M. Wilson, Sr. General Sanitarian

Gentlemen:

Thank you for the courtesy extended by your office in the investigation of the oil-like material being dumped at the Bremerton refuse dump by the Western Gas Company.

In as much as this material appears to be a heavy crude oil or tar-like material, we do not believe that this material will enter the underground water of the area.

We thank you for your interest in this matter and for your cooperation.

Very truly yours,

Lyman J. Nielson
Investigator

LJN/ek
